Reviews

Most of these ebook is the perfect publication offered. Sure, it really is play, still an interesting and amazing literature. You wont truly feel monotony at whenever you want of your time (that's what catalogs are for about in the event you check with me).

Not illustrated. 1807 Excerpt: .attempted to spring into his arms for greater security. It was frequently employed in taking fish, and would sometimes take eight or ten salmon in a day. If not prevented it always attempted to break the fish behind the fin next the tail; and on one being taken away, it immediately dived in pursuit of more. When fatigued by exertion, it would refuse to fish any longer; and was then rewarded with aa much as it could eat. Otters are found in most parts of the world, and rather differ in size and colour from each other, than in habits or conformation. The beaver is the only quadruped that has a flat broad tail, covered with scales, which serves as a rudder to direct its motions in the water; and that has membranes between the toes on the hind feet only, and none on the fore feet, which supply the place of hands, as in the squirrel. It is about two feet long, and nearly a foot high. Its colour is a light brown; the hair of two sorts; the one long and coarse, the other soft, short, and silky. The teeth resemble those of a rat or a squirrel, but are longer, and admirably adapted for cutting timber, or stripping bark; to which purposes they are constantly applied. These animals begin to assemble about the months of June and July, to form a society that is to continue for the greatest part of the year....
